## INFORMATION ON THE PROGRAMME

**The University of Johannesburg (UJ) offers an Online Bridging Programme for Advanced Diploma in (Logistics)**, which is designed for students with a relevant NQF 6 qualification or who come from Purchasing and Logistics. The Bridging programme aims to assist these students in their transition by preparing and enabling them to apply for the Advanced Diploma in Logistics.

## CONVENIENCE

- This programme is offered fully online and online contact sessions would be required.
- Online studies allow students to plan study time around the rest of their day, instead of the other way around.
- The programme consists of 4 modules that are divided into 4 blocks.
- Each module takes 70 days to complete including all assessments (Refer to Academics Calendar for all relevant dates).
- Apply, register, and complete all assessments online.
- Pay only for the module for which you are registering/adding in the specific block. Details of the Academic Calendar - [www.uj.ac.za/non-subsidised-programmes](http://www.uj.ac.za/non-subsidised-programmes)

**PLEASE NOTE: THE UNIVERSITY RESERVES THE RIGHT TO AMEND ENROLMENT REQUIREMENTS, TIMETABLES, PROGRAMME CONTENTS AND MODE OF CONTACT AS AND WHEN THE NEED ARISES, WITHOUT PRIOR NOTICE.**

**Non-subsidised programmes will continue despite National disasters.**

## ONLINE ADMISSION REQUIREMENTS

### Application requirements:

- Relevant 3-year NQF 6 qualification with 360 credits
- Selections are based on the performance in the relevant NQF 6 qualification.

## MODULE DESCRIPTION

### **End User Computing**

The purpose of this module is to enable students to use Microsoft Word, Microsoft PowerPoint and Microsoft Excel to enhance professionalism in the business environment.

### **Applied Accounting Skills (Logistics)**

The purpose of this module is to provide students with the basic principles of accounting, the accounting cycle and recording of accounting transactions. This module will help students to compile financial statements, do basic calculations and the recording of value-added tax (VAT) transactions.

### **Logistics**

The focus of this module is on the development and implementation of logistics principles in the supply chain environment. Students should be able to apply their knowledge, competencies and practical skills in planning and implementing logistics decisions.

### **Purchasing**

The purpose of this module is to provide knowledge of the development, evaluation and implementation of purchasing principles in the supply chain environment. This will enable the student to make a range of decisions implicit in planning and implementing purchasing. Upon the successful completion of this module, a student would have obtained fundamental knowledge on how purchasing contributes to value creation in the supply chain.
