STUDENT FEES

1. Payment options

1.1 E-payments

(Real time payment that allows immediate registration)

Students and parents can pay their student fees online through the website: www.uj.ac.za by using their valid credit/cheque/debit card. This option also ensures that payment reflects real time on the student's account.

1.2 Payments can be made at any FNB branch.

(Payments do not reflect real time)

Direct payments made at FNB and FNB ATM to the UJ bank account will reflect on the student account within 15 minutes. Electronic Fund Transfers (EFTs) from banks other than FNB might take up to two business days to reflect on the student account. EFTs from outside the country take longer, and students must allow at least ten (10) business days for the allocation of funds.

The FNB student Fee Account of the University is set up as a predefined beneficiary at all major banks, and therefore, you do not need the actual bank account number to make a payment. Select the UJ Tuition Fee Account as a beneficiary. The banking details are as follows:

Account Name:	University of Johannesburg UJ Tuition Fee Account	Branch:	Client Services
Account Number:	62615873199	Branch Code:	210-554
Account Type:	Cheque Account	Swift Code:	FIRNZ AJJ

Students must write their student numbers and names clearly in bold letters on the deposit slip. A copy of the slip can be emailed to studentaccounts@uj.ac.za. Students must keep a copy for their own records for at least two years.

IMPORTANT NOTE: *The University encounters numerous problems with bank transfers. Therefore, students and parents are requested to provide the University with copies of the bank deposit slips when bank transfers are made.*

1.3 Debit Orders

Students and parents can use the debit order system whereby the outstanding balance (with the exception of the first minimum payment) can be paid in ten equal instalments from 1 March to 1 December. This method of payment has the following advantages:

- Payments can be made over ten months, leaving the student/parent with a better cash-flow situation.
- No interest is levied as long as the debit order is honoured.
- Payments cannot go astray.
- It saves time.
